

**IN THE UNITED STATES DISTRICT COURT FOR THE  
NORTHERN DISTRICT OF FLORIDA**

**NOTICE OF DRAWING OF NAMES FOR REFILL OF MASTER JURY WHEEL**

Pursuant to 28 U.S.C. § 1861, all litigants in Federal Courts entitled to trial by jury shall "have the right to grand and petit juries selected at random from a fair cross section of the community in the district or division wherein the court convenes." The court uses a two step process to select jurors. First, a master jury wheel is created by selecting names at random from the voters registration source list. Names are then randomly drawn from the master jury wheel to receive juror qualification questionnaires. Individuals' answers to these questionnaires determine whether they are legally qualified to serve. If they are qualified to serve, the names of those persons are put on a second wheel referred to as a qualified jury wheel. The second step of the process begins when prospective jurors are needed for a specific trial or grand jury and a Summons for Jury Service is sent to persons randomly selected from the qualified wheel.

All of these selections are carried out through a properly programmed electronic data processing system for pure randomized selection. The pure randomized process ensures that the mathematical odds of any single name being picked are substantially equal.
